

Amendment

Serial No.: 10/766,317
Filing Date: January 27, 2004

Please replace the paragraph beginning at page ⁷/₆, paragraph [033] with the following rewritten paragraph: MJD 10/9/07

--FIG. 3G illustrates an exemplary *Homo sapiens* amino acid sequence for the G4 subdomain delimited by amino acid 1375 through amino acid 1390 (~~SEQ ID NO.: 17~~SEQ ID NO:17);--

Please replace the paragraph beginning at page ⁷/₆, paragraph [034] with the following rewritten paragraph: MJD 10/9/07

--FIG. 3H illustrates an exemplary *Homo sapiens* polynucleotide sequence for the G4 subdomain delimited by nucleotide 4124 through nucleotide 4171 (~~SEQ ID NO.: 18~~SEQ ID NO:18);--

Please replace the paragraph beginning at page ⁷/₆, paragraph [035] with the following rewritten paragraph: MJD 10/9/07

--FIG. 3I illustrates an exemplary *Homo sapiens* amino acid sequence for the G4 subdomain delimited by amino acid 1399 through amino acid 1529 (~~SEQ ID NO.: 19~~SEQ ID NO:19);--

Please replace the paragraph beginning at page ⁷/₆, paragraph [036] with the following rewritten paragraph: MJD 10/9/07

--FIG. 3J illustrates an exemplary *Homo sapiens* polynucleotide sequence for the G4 subdomain delimited by nucleotide 4196 through nucleotide 4588 (~~SEQ ID NO.: 20~~SEQ ID NO:20);--

Please replace the paragraph beginning at page ⁷/₆, paragraph [037] with the following rewritten paragraph: MJD 10/9/07

--FIG. 3K illustrates an exemplary *Homo sapiens* amino acid sequence for a polypeptide spanning the G4 and G5 domain delimited by amino acid 1399 through amino acid 1713 (~~SEQ ID NO.: 21~~SEQ ID NO:21);--

Please replace the paragraph beginning at page ⁷/₆, paragraph [038] with the following rewritten paragraph: MJD 10/9/07

--FIG. 3L illustrates an exemplary *Homo sapiens* polynucleotide sequence for a polynucleotide spanning the G4 and G5 domain delimited by nucleotide 4196 through nucleotide 5140 (~~SEQ ID NO.: 22~~SEQ ID NO:22);--

Amendment

Serial No.: 10/766,317
Filing Date: January 27, 2004

Please replace the paragraph beginning at page ⁷/₆, paragraph [039] with the following rewritten paragraph: mjd 10/9/07

--FIG. 3M illustrates an exemplary *Homo sapiens* amino acid sequence for a polypeptide spanning the G5 domain delimited by amino acid 1560 through amino acid 1713 (~~SEQ ID NO.: 24~~SEQ ID NO:23);--

Please replace the paragraph beginning at page ⁷/₆, paragraph [040] with the following rewritten paragraph: mjd 10/9/07

--FIG. 3M^N illustrates an exemplary *Homo sapiens* polynucleotide sequence for a polynucleotide spanning the G5 domain delimited by nucleotide 4679 through nucleotide 5140 (~~SEQ ID NO.: 26~~SEQ ID NO:24);--

Please insert the enclosed 76-page text entitled "SEQUENCE LISTING" immediately preceding the claims.
